

Correction: Accelerated *in vitro* model for occlusion of biliary stents: investigating the role played by dietary fibre

Surwase S, Balakrishnan H, Acharya SK, *et al.* Accelerated *in vitro* model for occlusion of biliary stents: investigating the role played by dietary fibre. *BMJ Innovations* 2018;4:39–45. doi:10.1136/bmjinnov-2017-000209

This article was previously published with an error.

In the second paragraph of Materials and methods section it is written ‘Bile-resistant *Escherichia coli* from the strain ATCC2931 was developed by subculturing it in the aforementioned 10% bile solution for 10 generations.’ whereas it should be ‘Bile-resistant *Escherichia coli* from the strain NCIM 2931 (<http://www.ncl-india.org/files/NCIM/CatalogueDetails.aspx?NCIMNo=2931&menuid=q14>; this strain is internationally available as ATCC 25922) was developed by subculturing it in the aforementioned 10% bile solution for 10 generations.’
