Contents

Editorial

1 Call to action for the BMJ Innovations community after COVID-19
A McKimm

Discussion

3 Will COVID-19 be the coming of age for point-of-care testing?
C P Price, A St John

6 Integrative clinical, genomics and metabolomics data analysis for mainstream precision medicine to investigate COVID-19
Z Ahmed, S Zeeshan, D J Foran, L C Kleinman, F E Wondsford, X Dong

Diagnostics

11 Postmortems on diagnostic testing start-ups: reports of commercial successes and failures and the case of the Zombie life science company
J Pealbody, T Burgon, D Pauzudo, O Ouenes, E de Belen, M Richey, R M Thayer, M Urlea

18 Oregon’s approach to leveraging system-level data to guide a social determinants of health-informed approach to children’s healthcare
C P Reuldand, J Collins, L Chiang, V Stewart, A C Cochran, C W Coon, D Shinde, D Hargunani

26 Can non-invasive features including limited joint mobility be used to predict glucose control?
S Ramroach, A Dhanoa, B Cockburn, A Joshi

Medical devices

33 Discrepancy in the physical dimensions of nose and continuous positive airway pressure (CPAP) interface: a possible reason for high rates of nasal injury in Indian neonates

40 Design, development and evaluation of Artificial Breathing Capability Device (ABC): a novel innovation for respiratory support
J L Mathew, M Sharma, A Gawri, Sukesha, N Kumar, A Chander, P J Mathew

47 Interdisciplinary development and evaluation of a novel needle guide for ultrasound-guided lumbar epidural placement
R Singh, C Burllinson, S Honigmann, P Abolmaesumi, A Chau, R Rohling

53 Assessment of postoperative gastrointestinal motility in colorectal surgery: a study with the Motilis 3D-transit system
J Norris, M W Klinge, T Sommer, S Laurberg, K Krogh, J A Franzi

Health apps and mHealth

61 Implementation and evaluation of a pilot Match-A-Nurse programme to provide home-based care in Singapore
S B Ang, S Neo, B Koh, S J Cheng, I Tan, J Thumboo, L G H Goh, S S Dhaliwal

68 Examining the impact of an asynchronous communication platform versus existing communication methods: an observational study
M Jhala, R Menon

75 Using a pharmacist-led mHealth to improve patient’s adherence of antidepressants: patients’ experiences in low resourceful country
M Amir, Z Feroz, A E Beg, N Rickles
