

Table 1 – Summary of smartphone features and user evaluation survey during ward round and teaching simulations.

Smartphone used during study features:										
Device	Wi-Fi enabled	2-way audio	MS Teams	Battery life	Resolution	Hands free	Head worn	Body worn	Screen size	Cost of device
Smart Phone (iphone 5)	Yes	Yes	Yes	8-10 hrs	720p, 1080p and 4K	N/A	Yes	Yes	4 in x 10.2 in	£300
Survey Results for device users										
Number of evaluations (device users)	Most liked feature	Least liked feature	Device mount	Likert 1= not recommend	Likert 2= recommend with major changes	Likert 3= recommend with minor changes	Likert 4= recommend without any changes			
Smartphone. N = 10	Small size and compact Easy to use Good audio and video feed	Not completely hands free	Lanyard = 1 Head mount = 3 Chest mount = 6	n=1 (10%) Could not see screen on head mount	n=3 (30%) 2 – Head worn. (discomfort on head when worn for short period) 1 – Poor connection and small screen.	n=1 (10%) (sim should be included)	n =5 (50%)
